### 18-24 Months

In this classroom, your child is learning about themselves. We provide a safe and loving environment where they can develop positive self-esteem. In this classroom, your child will learn how to make friends and to share toys. Our teachers will also work with your toddler as they gain vocabulary in order to express themselves.

### PRE-K 2 & 3

Our children work on developing social skills, engaging their creative side with art and sensory activities.

Language development and listening skills are encouraged through verbal and visual stimulation of color words, shapes, numbers, animals, sorting, building, and more.
